Out at the Park.

The rush of pleasure seekers to the Park yesterday was probably the largest on any Sunday in the history of that increasingly popular resort. The Elm Grove trains were crowded at every trip until unusually late in the afternoon. The concert by the Opera House orchestra was a fine performance, eminently worthy of the large patronage. It was not until the 9 o'clock motor that the last of the crowd came in. Among the throng were many strangers so-journing in the city.

* Caused by Heckless Driving. Last evening as Fred Hess, a well-known railroad engineer, was returning to Hill's livery stable with a buggy he had hired there, he neglected to check his rapid speed on a curve, and the buggy was upset and badly broken, while Hess was thrown out, and striking on the left side of his head, slit his ear and received other severe injuries. The horse was unhurt. The animal is said to be a very quiet, reliable beast, and the accident was due solely to reckless driving.

lames to be Played this Week-A Game for a Purse at Fairmont. Ball Playing in the Mountains. General Ball Gossip.

The Wheeling ball club will return

nome this morning from a week's trip, in company with their old-time enemy, Col. Hollow-Eyed Defeat, who has been ably assisted during the week by his silent partner, Major Hard Luck. Between partner, Major Hard Luck. Between them they have forced Wheeling to go sliding down the percentage table with a roller-coaster rapidity. When the club started on this disastrous trip it occupied second place in the table, but the six successive defeats that have been sustained have landed it a bad fifth, with Hamilton the only flub behind it. Mansfield and Canton were the towns visited; three regular League games were played in each town and Wheeling was defeated in all of them. The club will be accompanied home by the Canton club and a series of three games will be played between them at the Island park to-day, to-morrow and Wednesday. The chances are that by the time this series is concluded Wheeling's percentage will be considerably smaller than it at present. The leaders play great ball and the Wheeling club as at present constituted has very little show of defeating them.

Following will be found an account of the two defeats at Canton yesterday and Saturday:

Friday the Board of Directors of this company declared a semi-annual dividend of 5 per cent.

Canton, O., July 28.—The Wheeling club hit the ball hard enough to win today, but that hitting was not done at the day, but that hitting was not done at the right time, except in the third inning when two runs were earned.
